

expresSO™

## Advanced expresSO Application Integration Course

This course will train users to further expand the rollout of their expresSO solution by building custom application integrations using the Connector Wizard and the Sentillion Performance Framework. Participants in the 2.5 day lecture-lab Advanced expresSO Application Integration course shall:

- gain hands on experience with the Sentillion Performance Framework (SPF) API
- learn how to integrate Windows and Web-based applications
- extend Connectors to support custom actions
- build custom Connectors
- collaborate with experienced integration engineers to review their target applications and plan their expansion

### Course Prerequisites

- Experience with scripting and/or programming, JScript preferred
- expresSO solution is live with initial Connectors
- Onsite courses require access to an expresSO test environment

### Advanced expresSO Application Integration Course Agenda

Day 1	Day 2	Day 3
